

Swimming Pool Checklist/Info. Sheet

The following is intended to be an aid for the installation of a swimming pool:

- ✓ A footing inspection is required *after* the footing concrete is poured and *before* the pool is backfilled.
- ✓ A temporary barrier is required around the pool excavation until such time as the permanent barrier can be installed.
- ✓ If there are ladders, luminaries, etc., a bonding inspection is required *before* concealment of the mounting fixtures.
- ✓ A rough-in electrical inspection is required *prior to* concealing/backfilling any wires, conduits, etc.
- ✓ **In accordance with Section 36-105 of the Code of Virginia (1950, as amended), a final inspection is required to be approved prior to use of this pool.**

Attached are the swimming pool sections of the Virginia Uniform Statewide Building Code, as amended. Please make special note of the **electrical** and **barrier** requirements.

If you have any questions concerning any of the requirements for a swimming pool or any portions of a pool inspection, please call us at 804-561-3039.
